1. Domestic abuse and parental conflict: understanding the signs and symptoms and exploring ways to support pupils and the wider family	<p>Since the COVID 19 pandemic, there has been an exponential rise in cases of domestic abuse. As family units have been faced with greater pressures through confinement and loss of freedom and routine (including loss of employment), more children have been exposed to abusive situations.</p> <p>Domestic abuse is often a hidden crime that is not reported to the police. Therefore, data held by the police can only provide a partial picture of the actual level of domestic abuse experienced. Many cases will not enter the criminal justice process as they are not reported to the police. Participants will also be able to network with fellow colleagues, sharing good practice and approaches.</p>	<p>As always, schools have been at the forefront of supporting children and their wider families whilst dealing with the impact of such abuse. This webinar will explore:</p> <ul style="list-style-type: none"> • key aspects of domestic abuse and parental conflict • the impact of domestic abuse and parental conflict on children and their families • a range of strategies to support children incorporated within the schools' wider pastoral support systems • the role of wider services and longer-term support for the family unit 	<p>Heads, senior leaders, middle leaders, department leaders, phase leaders, teachers, teaching assistants, pastoral leaders/ team members</p>

Dual coding, graphic organisers, Rosenshine's principles and active learning strategies: are they evident in teaching pedagogy?	<p>This course will provide participants with the opportunity to look in greater depth at key ingredients that contribute to highly effective teaching.</p> <p>Research and inspection evidence suggest that the most important factors in how, and how effectively the curriculum is taught and these are incorporated into the 'implementation' part of the Quality of Education section in the current Inspection Framework. Participants will explore the role that dual coding, graphic organisers, Rosenshine's Principles and Active learning strategies can play in achieving this.</p>	<p>Participants will explore and reflect on:</p> <ul style="list-style-type: none"> • The extent to which teachers help pupils to understand key concepts, by presenting information clearly and encouraging appropriate discussion. • How effectively adults check pupils' understanding effectively, and identify and correct misunderstandings • How teachers ensure that pupils embed key concepts in their long-term memory and apply them fluently. • The theory of dual coding and Rosenshine's Principles and how they can be incorporated into the teaching and learning process • opportunities to use graphic organisers to support pupils in processing and demonstrating their understanding • a range of 'active learning' strategies that adults could use in lessons and interventions 	<p>Heads, senior leaders, middle leaders, department leaders, phase leaders, teachers, teaching assistants</p>
